# A FINE COUNTRY.

Incident at this time Western Canada is an ideal land for Farmers and Ranchers.

A delegate from Ohio to Western Canada says: "The whole of Western Canada seemed to me to be a very fine country, but I spent most of my time about thirty miles east of Lacombe, in Alberta, near what is popularly known as the coal banks on the Red Deer River, and I am very pleased to report that the country appears to be everything that the Agents of the Canadian Government have claimed for it. Good water can be obtained almost anywhere from 17 to 40 feet, and fed generally by springs. The natural hay and grass were magnificent in their growth and wild pea vines very heavy. I met some of my friends who moved there seven years ago and two brothers who had absolutely nothing on their land seven years before now own 20 and a half sections of land and 115 head of cattle. They told me that they did not feed their stock all winter, in fact, never saw them again until the spring, when they came home fat and without loss. I gathered some 6 ft. 4 high and running from 15 to 100 bushels per acre. It appeared to me that all grasses, wild and cultivated, grow to perfection in any part of Alberta that I saw, and the farmers were getting from two to three tons of wheat per acre. I found the climate very desirable in every respect, and I am told that the winter is the finest part of the year. There is plenty of coal and wood to be had near by for the hauling, and such is my satisfaction with the country that I acquired some land and have put a bunch of cattle there. I can confidently recommend Western Canada as a reliable place for farmers to immigrate to, and can assure them the kindest treatment by the people there, so much so that one does not distinguish the fact that we have left the boundaries of the United States."

High Sponder, of the Westminster Gazette, one of the British Journalists who visited Canada this summer (1902), says: "We fell in with a young farmer from Somersetshire, England, driving a binder round a hundred or a field of wheat in Western Canada. In conversation I found that he came from within fifteen miles of my old home in Somersetshire. Here was the very man we wanted. He had come to Manitoba ten years ago, with a capital of \$100 on hand. In England he had been employed on a dairy farm, and earned eighteen shillings a week. He now owns 300 acres of land, his horses, buildings and cattle, and expects to have 1,000 bushels of wheat this season. We had heard of such things in the old land, but they did not seem credible, until we came to this living example of the strides that it is possible to make in Manitoba. Had this man remained in England, it is pretty safe to say he would still be earning no more than eighteen shillings a week, while in the same period in Manitoba he has become a substantial and prosperous farmer."

"I know a man who commenced in Assiniboia, 15 years ago, with no money, no capital. Today this man owns 7,000 acres of land, some 30 horses, 100 cattle, and 100 sheep."

## A HISTORIC CHECK.

It Was Found Among the Personal Papers of the Late J. C. Murphy.

Lexington, Ky., Dec. 26.—While John Skell, administrator of the estate of the late James Murphy, was going through the latter's personal papers Thursday he came across a check for \$1,000 which Murphy drew on February 22, 1897, payable to the order of the late Harry M. # A TERRIBLE WRECK.

Twenty-Four Killed and Many Hurt on a Canadian Road.

The Operator Who Failed to Deliver the Order to the Conductor Says It Was Concluded by the Dispatch.

London, Ont. Dec. 26.—There were no deaths Sunday among the persons injured in Friday night's collision at Watford, on the Barrie branch of the Grand Trunk railway between Pacific express No. 5, west-bound, and an east-bound freight in which 28 persons lost their lives. At Watford hospital several of the injured are still in a serious condition. It is expected that all will recover. The body of Freeman Birkette, of the express train, which was Saturday night hit, was buried under the wrecked engines, was found Sunday covered with snow in the ditch beside the track. One arm was "slightly torn off" and the body was otherwise mangled. Death must have been instantaneous.

Andrew Carson, the operator at Watford, the first station east of the wreck, whose failure to deliver orders to Conductor McNeill, of the Pacific express, to pass the freight at Watford, is said by the Grand Trunk of Canada to have been the cause of the wreck. Sunday afternoon made his first statement about the wreck. He says he received the order for No. 5, the express, to pass the freight at Watford at 10 o'clock, but that Carson, who was at the station, did not deliver the order. He said: "About 9 o'clock, after calling Watford and ascertaining that the freight was there, the dispatcher called me rapidly a half dozen times. When I answered on the wire he told me to 'pass' the order. I wrote 'pass' it across the order just as No. 5 was coming in. Conductor McNeill came in and asked me what the order board was out against him for. I told him that we had an order for him but the dispatcher had 'passed' it. He asked me to hurry and write him a clearance order, which I did. After the train had started and was out of my reach the dispatcher learned that the freight had left Watford. I told him I could not stop No. 5 as it had left. He immediately began calling Kings Court Junction, the station between Watford and Watford, on the railroad wire and I tried to raise them on a commercial wire. We both failed to do this, however until after the express had passed the junction."

One of the most pathetic features of the wreck is the triple loss sustained by the body family of Port Huron. In the death of Mrs. J. Bodley, son Clem Bodley and granddaughter, little Lillian, who died at Victoria hospital. The bodies of 19 of the victims have been shipped to their sorrowing friends at home. The trunk of the, as yet, unidentified woman was located by the Grand Trunk officer Sunday and arrived here about 10 o'clock Sunday night. It will be searched in an endeavor to find some thing with which to identify the woman.

# POISONED WINE.

One Man Is Dead and Woman and Daughter Made Sick.

Chicago, Dec. 25.—Poisoned, it is charged by means of a bottle of wine given as a Christmas present, Richard Cummings, 50 years of age, died Sunday at the home of Mrs. Lillian Shanahan, 1225 Ashland avenue, where he was boarding. William Moniak, his wife, Mrs. Theresa Moniak, and their 11-year-old daughter, Mary, of 4224 Ashland avenue, were arrested Sunday on suspicion of having poisoned Cummings.

A bitter quarrel is said to have taken place between Cummings and Mrs. Shanahan, on one side, and the Moniahs on the other. The wine, according to the story told the police, was placed on behalf of her parents as a peace offering. Mrs. Shanahan drank some of it and said she suffered from severe pain soon afterward. She offered some of the wine to her niece, who complained that it tasted bitter. Cummings drank the remainder and died 24 hours later. "I have been poisoned by that bottle of wine and want the people who gave it to me arrested," were the last words of Mrs. Shanahan. Dr. William T. Kirby, who attended him, received a similar statement. An examination of Cummings' stomach was held Monday. Moniak and his wife only that they had any knowledge of poison being in the wine.

## DEATH OF MRS. FREMONT.

The Wife of the "Pathfinder" Passed Away at the Age of 78.

Los Angeles, Cal., Dec. 25.—Mrs. Josephine Fremont, widow of Gen. Fremont, who died yesterday night at her home at 1107 West Twenty-eighth street, in this city, was 78 years of age. Mrs. Fremont was taken ill on Christmas. She grew rapidly worse and lapsed into unconsciousness, from which she never rallied. For three years the aged widow of the "Pathfinder" had been extremely feeble as a result of a fall in which she suffered dislocation of the hip, which has since prevented her from walking. A naturally strong constitution was impaired by the shock of the fall and recently Mrs. Fremont required the aid of a trained nurse, her first husband's years adding the gradual decline of her strength. Mrs. Fremont was the daughter of Thomas H. Benton, for 20 years a senator in the United States senate.

## STRUCK A ROCK.

The Army Transport Sherman Damaged South of Luzon.

Manila, Dec. 25.—The United States army transport Sherman struck a rock near San Bernardino light, south of Luzon, Friday night. The transport sustained a heavy shock and one of the heavy plates was damaged. After the accident 12 inches of water was found in her forward bilge, but was controlled by steady pumping. The steamer proceeded for Manila under her own steam and arrived here Sunday.

When the Sherman struck the passengers on board were terrified, but there was no disorder. They promptly took their stations, with life preservers on, in the small boats. The officers of the Sherman handled the situation splendidly. Her cargo was not damaged. It probably will be sent on for her to dock at Hong Kong.

# WILL PAY HER DEBTS.

Guarantees Them By a Percentage on Customs Receipts.

It is Understood Venezuela Will Make Any Guarantee, Even Abandoning the Navy Bar Returned.

Caracas, Dec. 25.—United States minister Bowen and Lopez Baralt, Venezuelan minister of foreign affairs, held a long conference Saturday night. Mr. Bowen, on receiving instructions from Washington, conveyed to Baralt President Roosevelt's refusal to act as arbitrator in the Venezuelan difficulty. He recommended that the matter be taken to the international peace court at The Hague, which had been expressly organized to consider questions in which the honor of a country or the disposition of territory were not concerned. He suggested the organization of a commission to sit in Washington by their ambassadors to the United States and Venezuela by a delegate. The commission is to sign a document setting forth the matter to be decided at The Hague court. Mr. Bowen said also that Germany would not press for an immediate payment and that she had agreed to accept a guarantee based on a percentage of the customs receipts. As a result of this conference Baralt telegraphed President Castro to return from La Victoria. The president will reach here Monday and Venezuela's answer to the "proposing proposal" will be given then. It is understood that Venezuela will make any guarantee, even abandoning the demand that her navy be returned. Through the Venezuelan dispatch to the commission, the Venezuelan government will ask that the blockade be lifted at once. Senator Baralt has expressed the desire that Mr. Bowen represent Venezuela on the commission. If Mr. Bowen does not accept the post it is suggested in official circles that it be given to W. W. Russell, secretary to the American legation.

Senator Baralt has prepared the following statement for the public: "Venezuela agrees to pay all her debts, the payments to be guaranteed by a certain percentage of the customs receipts or by the donation of a special loan, also to be guaranteed. I believe the proposal to submit the issue to The Hague will be acceptable to President Castro. I am sorry that President Roosevelt was unable to act as arbitrator."

Washington, Dec. 25.—The Venezuelan revolutionaries have resumed active hostilities against President Castro. They have been fighting day morning a live battle near the town of 1,200 revolutionaries, who have taken the city of Coro. Details of the engagement are lacking, but it is known here that the revolutionaries had artillery. The government forces were commanded by Gen. Rufino Castillo. Gen. Riera retained his position. The armistice between the government and the revolutionaries has just expired. News has reached here from an authoritative source in Caracas that Vicente Gomez, first vice president of the republic, intends to carry out a bold strategic stroke against President Castro.

Gen. Solis Vidal and five other leading supporters of Gen. Matos, who had sought refuge here, left the island of Margarita for Venezuela, where they are going in a steamer.

# THE OLD FOLKS AT HOME

Are Never Without Peruna in the House for Catarrhal Diseases.

MR. AND MRS. J. O. ATkinson, Independence, Mo.

Under date of January 19, 1907, Dr. Hartman received the following letter: "My wife had been suffering from a complication of things for the past 25 years. She had built the skill of one of the most noted physicians. She was suffering from a complication of several years' standing. She was also passing through that critical period in the life of a woman—change of life. In June, 1905, I wrote to you about her case. You advised a course of Peruna and Manilla, which we at once commenced, and have to say it completely cured her. She firmly believes that she would have been dead only for these wonderful remedies."

"About the same time I wrote you about my own case of catarrh, which had been of 25 years' standing. At times I was almost past going. I commenced in the Peruna according to your instructions, and continued its use for about a year, and it has completely cured me."

"Your remedies do all that you claim for them, and even more. Catarrh cannot exist where Peruna is taken according to directions. 'Sincerely yours and your remedies.' John O. Atkinson."

Dr. J. C. Hartman, The Western Dispensary, Columbus, Ohio.

When old age comes on, catarrhal diseases come also. Systemic catarrh is almost universal in old people. This explains why Peruna has become so indispensable to old people. Peruna is their safeguard. The only remedy yet devised which cures these exactly. Such cases cannot be treated in anything but an effective system, only could cure them. This is what Peruna is.
